STATEMENT OF QUESTIONS PRESENTED

1. Whether the Bankruptcy Court properly denied Appellant's motion to file a late proof of claim on the facts and circumstances of these chapter 11 cases, when all of the conduct giving rise to the claim occurred prior to the petition date and nine months prior to the bar date; the Debtors gave publication notice of the bar date to unknown potential creditors including Appellant; Appellant did not file her motion until over 14 months after the bar date and until over 3 months after engaging counsel about a possible medical malpractice claim; and the Debtors proposed, and subsequently have confirmed with the consent of all impaired classes of claims, a plan of reorganization which provides for the payment of all timely-filed medical malpractice claims in full, based on an estimate of potential medical malpractice liability which did not include Appellant's claim because no timely claim was filed?
